### **Commencement of NCSS & CGT Services Over the Internet DSL**

**Dear Clearing Members,**

This is with reference to the above mentioned subject. In this respect, National Clearing Company of Pakistan Limited (NCCPL) has always strived to improve its services from time-to-time by following latest trends, especially in the field of technology.

Moving a step ahead in this direction, we announce the commencement of NCSS & CGT connectivity services over the Internet DSL for our remote clients, especially who connect through the existing Dial-Up setup.

#### **Why DSL?**

DSL is a acronym of Digital Subscriber Line, that is used for faster data communication over copper telephone lines than a conventional voice band modem can provide.

#### **Benefits of DSL**

1. The speed of a broadband connection is the major highlight.
2. In a broadband Internet connection, there are no automatic cut-offs or time-outs of the connection.
3. As the connection is fast, the download rate of report is also fast. Thus, downloading, NCCPL client's data will be much faster in a broadband connection.
4. The broadband connection is an "always on" connection. The broadband connection is always on 24/7 once the computer is started. This saves a lot of time as compared to Dial-Up where the user has to free a phone line, put in a password, connect, and then browse.
5. Disconnection possibility is at a lower side.

#### **Pre-requisites for Connecting NCSS & CGT Services Over Internet DSL**

1. Acquisition of Internet DSL connection from a reliable vendor; preferably 2 Mbps at least.
2. Acquisition of Public (Static) IP from the Internet DSL provider; which will be required to be communicated to NCCPL and specifically allowed by NCCPL, to strengthen the security measures.
3. Request on company letter head for DSL connectivity stating the public IP to be allowed.
4. Installation of VPN client to ensure security of data moving over the Internet channel.

### Discontinuation of Dial-up Services

Due to inherent issues faced in the dial-up connection, NCCPL has decided to phase-out this service by **31 October 2016**. All members of the system connecting NCSS & CGT through the dial-up services are requested to ensure shifting to Internet DSL connectivity by the mentioned date.

For any further queries or concerns, please feel free to contact the Customer Support Services of your respective locations.
