PSX and NCCPL Disaster Recovery Drill
Notification for NCSS & CGT LAN Clients
(Only for PSX LAN Users located in Karachi)

Dear Clearing Members,

This is with reference to a Disaster Recovery (DR) Activity planned by the Pakistan Stock Exchange (PSX) on **February 18, 2017** in coordination with the National Clearing Company of Pakistan Limited (NCCPL) to ensure the connectivity of its all associated services.

In this DR exercise, the Clearing Members (CMs) of Karachi connecting to NCSS & CGT Systems by using PSX LAN connectivity will not be able to connect to DR by using such LAN connectivity. To ensure connectivity during DR activity, CMs need to perform following activities:

1. CMs are required to obtain Internet DSL Connection with Static IP and provide the same to the NCCPL latest by **February 10, 2017** (recommended speed is 2 MB).
2. CMs would provide the Static ID as per the attached format to NCCPL Karachi Office on their official letter head duly signed by their authorized signatory (ies).
3. Our NCCPL technical support team will contact the LAN Users to provide technical assistance for establishing connectivity to NCSS & CGT System of the NCCPL.
4. After the completion of DR activity, the CMs will revert to LAN connectivity by plugging-in the network cable required for LAN connectivity.

Note: Kindly note that this is mandatory requirement for all CMs using LAN Connectivity from PSX Building Karachi. Otherwise, during PSX DR Drill(s), NCSS and CGT Systems connectivity will not be available.

Key Benefits:

- LAN user can move on to Internet DSL connection immediately, in case of any emergency or unavailability of LAN network without any configuration requirement.
 - In such situation, the LAN User would only be needed to plug-out their network cable and connect to internet connectivity for CGT and NCSS.
-

ISO 27001 Certified

National Clearing Company of Pakistan Limited

8th Floor, Pakistan Stock Exchange Building, Stock Exchange Road, Karachi

- After restoration of emergency situation or LAN issues resolve, client can move back by only plugging-in the network cable to the system.

You are requested to test your connectivity after conducting necessary changes in your system by NCCPL technical team.

For any further queries or concerns, please feel free to contact the Customer Support Services as per following information.
